[Child abuse by ex-President COC](#)

By [Micha Kat](#) on October 29, 2009 in [General](#) . [22 Comments](#)

Mayor Job Cohen is great patron of pedophiles * VVD is now for Friends of Demmink * Top-VVD and former chairman COC Frank van Dalen recidivist child abuser * Joris Demmink, Frits Huffnagel, Ed Nijpels, Frank van Dalen: VVD pedo-party * Child abuse 'approved' by Maxima

And again there is a "financial scandal" surrounding the "coming political talent" of the VVD [Frank van Dalen](#) . [The Times](#) report today that grants to the Gay Pride parade would be used unlawfully. The parade is a 'product' of the Foundation Pro Gay Frank van Dalen whose [president](#) is. But what really is has nothing to do with money: it is an attempt by a detour to deal with these criminal pedophile. According to sources in the Netherlands was "simply not possible to politicians in connection with child abuse. Therefore, in extreme cases and at Van Dalen was certainly there are-always looking for "other ways" to deal with child molesters. Abuse of minors was also the reason that Frank van Dalen mid 2008 defeated a like Chairman of the COC. "It was nice sold as would the emancipation be completed so there are now more person was needed" at the store would fit, "but in the background played strongly persistent reports of child abuse," said one source that his story adstrueert through the production of minutes of a COC meeting in Nijmegen, dated June 21, 2008, two days before the resignation of Van Dalen became national news:

COC Nijmegen here to request the opportunity to ask questions about what the last months of rumors about the president of the COC doing the rounds. The image of the COC in the gay media calls to the rank and question marks. It is not clear what one member associations do and what not to believe, are receiving local government questions. Thus, the ex-partner of the president have a job and has helped the rumor about contacts between the President and young boys.

Even with his departure as president of the COC were financial arguments put forward: Frank van Dalen (photo) was publicly hanged in the deficit of more than one million under his leadership emerged. But this argument has lost much strength directly by the fact that he [was succeeded](#) by his Treasurer Wouter

Neerings that at least co-responsible. Incidentally, Frank van Dalen in various media have strongly [associated](#) with child abuse.

Abuse of "security-grant"

Recent reports of abuse of grants to secure the Gay Pride have been particularly painful because Frank

van Dalen same Gay Pride as a kind of "personal brothel" to recruit children, as reported by sources like nothing better than finally deal with Van Dalen. To this end, Van Dalen called "16-min boat 'was introduced, a floating collection of minors where he could freely choose from. Children over eleven years were "sailing" of organizer Pro Gay / Frank van Dalen that the Gay Pride in 2006 "over" the foundation GBA (Gay Business Amsterdam). Frank van Dalen abused one of the children who sailed on the "children's boat 'in the Gay Pride in 2007, the mother of the child wanted to get redress and threatened a crisis arise. The COC was directly involved in this crisis because it paid for the the "children's boat 'and please note, because the boy still in committee" Old and Young "Sat of the COC. From that moment, the position of Frank van Dalen at the COC under increasing pressure leading to his departure in mid 2008.

Cohen personally paved the way for the child boat

Extreme pain in all this is the role of Job Cohen in small circles for years is called the "mayor pedophiles. A source: "When Van Dalen started shouting that there is a children's boat had come, was the foundation GBA strongly against it. Cohen also wanted it at first. But Frank van Dalen has him within one week on a completely different track to get to know. There are images in AT5. Cohen said in early 2007 that he literally "complete confidence" in Van Dalen and Pro Gay. But Frank van Dalen has that confidence so cruelly abused. " [ending February 2008](#) were both Princess Maxima as Minister Plasterk guest of Frank van Dalen at the signature of a "gay covenant. RVD gave the opportunity for such a declaration stating that from Maxima's presence shows "that she's gay child at heart."

Pedophilia royal approval that you can gradually adopt indeed. The adjutant of HM the Queen is also such a well-informed sources in The Hague.
And Mark Rutte, I believe. As many apparently VVD.

Wilders? I've never heard his name under the list kinderneukers. Seems very difficult for someone with 24 × 7 security ...

Off-topic:

"T is for member associations not clear what is and what one should not believe"

I wonder what the COC under "member organization" means ...

Actually, I also do not know 😊

What I miss in this area with the Freedom Party, a number of questions concerning Joris Demmink. Roon (PVV) had ever requested, said (at a meeting in Rotterdam and I know of a trustworthy person) that he would like to receive information and then possibly asking questions. The information he has. But it never happened.

What about very many things the PVV questions, questions referred to it would certainly be made. Why is that?

Is not as bold as the PVV supporters expect?

It will not be allowed to serve as the PVV channeling discontent which (the) one and (the) other 'manageable' remains?

(Can you imagine how suspicious Balkenende and his cronies have made me!)

What I do know is that Wilders knows very well the limits within which he must act. And he loves the rest of his "Party" well in line.

The frameworks within which policy debates Hague has predetermined my opinion. Within that framework there should be very hard 'fight' to be. Islam, migration policy, criticizing the government is all within that framework. The "backyard" of the elite do not. It seems even an unwritten law to be under political journalists not to write about the sex lives of politicians.

The sex lives of politicians and other prominent persons is at least one of the most beloved - if not the most popular - discussion topics during conclaves of parliamentary journalists and politicians.

Micha Kat,

This article makes me quite sick. It is a genuine mystery to me why you in this article relate it to pedophilia. I know that I as a politician does not have anything to worry what people write, but I go too far. With pedophilia I have nothing to do and that remains for me is so whether it be opposing it. If you sick in your head out again the suggestion that I pedophile, I will not hesitate to ask my lawyer to take action.

Hey Frits, what do you think that your party member George Demmink ("I do not always ask the age") openly admits to rape children?

- Martijn

[November 1, 2009 at 24:26](#)

I must say, the evidence put forward in the direction of Frist Huffnagel have (so far) very small. In an earlier article refers to "reports that reach our website, which is little. Frank van Dalen is a different story.

It does me good to you here on the forum and respond eleest. I find something quick to threaten with a lawyer, but that's your good right. I too am curious what you think of the case Joris Demmink. A party member. There is more debate about the party. Would you in your capacity as a partisan here to respond? In addition, as recognizable Dutchman 'like to ask about this? Not least because of suspicions the rain hits you now?

Frits Well I understand you're angry when you do not like the 'child' are, that everyone would have. Still, I think you better can actually tell what you all did not order a child to stop! Possible that this page about 30 years to be viewed by anyone and it would help if you react instead of content. a threat with a lawyer. (Except that nobody on this board has any message or attachment to the criminal behavior of lawyers and Micah, the court seems just like it better if you cleanse your name here instead. That you have about five years read on your own name a wall next to JD)

hey frits,

Well any help is welcome in the fight against pedophiles, it seems like hell to get more!
These people are just clearly a danger to society and serve here as far as possible be kept away! Let them in orange suits that second maasvlakte go build something!

The way in which justice and government deal with the problem is simply outrageous! Of my guests may be castrated for possession of child pornography, that must eventually be produced! insist on stricter penalties so!

Have you already signed the petition on this page?
Would ever change a nice VVD which supports an independent investigation Demmink.
If nothing is wrong then it will turn out, I mean it sincerely that I would find it very seriously and unjustly accused is Demmink. You come immediately to defend against these accusations, why does not George?

After all the media reports about George and pedophilia cases in general, you do not deny that something is wrong in law enforcement in this area! Would you open an interview with JDTV courage on this issue?
